Professor Ian D. Rotherham and colleagues are organising a 2-day event on **‘woodland shadows and ghosts – the lost woods in the landscape’**. The event will begin with a field visit on Friday (17th) to start the discussion. On Saturday (18th) the indoor event will bring together speakers from a range of disciplines and include an afternoon panel discussion to review and develop ideas around ancient trees, ancient woods, wood pasture and the ideas of shadows, ghosts and retired veterans. This will develop ideas from previous work and draw together suggestions from practitioners and senior policy makers to examine issues of concern and lay the foundations for a major funded project to run in the next few years.

We already have speakers and panel members from Natural England, Defra, the Woodland Trust, the National Trust, Ancient Tree Forum, National Parks, Universities and practitioners but would welcome offers of further contributions and posters.

The event will begin with a field visit on the 17th May in the afternoon / early evening to a site in the Peak District; the fee will include a packed lunch & refreshments. The event on the 18th May will be in the Cantor building at Sheffield Hallam University and run from 09.45 to 16.45, a delegate pack, refreshments and lunch options are included in the fee. There are limited places and pre-booking is essential. Please fill in the booking form and return as soon as possible to reserve a place – further information will be sent to those who book.

Cancellation fees: Full fee payable if cancellation is within 2 weeks of the event; 50% payable if within 3 weeks; 25% payable if cancellation within 4 weeks; over 4 weeks – full fee will be refunded minus a small administration charge.
